SUMMARY

Procurement and Material Planning Specialist with management experience, and exceptional leadership skills. Versed in strategic sourcing and continuous improvement, I desire a challenging role in Supply Chain Leadership. Excellent client and project management skills. Action-oriented with strong ability to communicate effectively with technology, executive, and business audiences.

ACCOMPLISHMENTS

Carrying continuous improvement tools to Dorman Products, I was able to rebuild the supply chain of the packaging product group, with the help of the product team to increase inventory turns, decrease company costs on packaging, and build strong relationships with product group vendors. This one year project has lead to increased job performance, reduction in time spent on particular jobs, and has brought Dorman more than \$350,000 in yearly savings.
